-------------------------	----------------------	--------------------------

Worked on designing posters, membership cards and event brochures.

EDUCATION

B.Tech in CSE	Kalinga Insitute of Industrial Technology	2021 – Present
----------------------	--	-----------------------

- CGPA: 6.69/10 (up to the 6th Semester)
- Expected graduation: 2025

TECHNICAL EXPERIENCE

Projects

- **Instagram Clone using HTML & CSS** : Designed and developed a fully functional Instagram Clone web application using HTML and CSS, replicating the core features and user interface using front-end development.
- **Portfoliousing HTML, CSS & JS**:Designed a creative portfolio using HTML,CSS and JS implementing creative features.
- **Stopwatch using HTML,CSS &JS**: Built a stopwatch web application, you can use HTML, CSS, and JavaScript. By implementing functions for starting, pausing, and resetting the stopwatch, as well as tracking and displaying lap times, users can accurately measure and record time intervals. With these technologies and functionalities, you can create an interactive and user-friendly stopwatch web application.

CERTIFICATIONS AND AWARDS

- **Data Science** : Completed a course on data science under Intershala, security 88% marks.
- **Problem Solving (Basic)** : Finished problem solving in Basic in the platform, HackerRank.
- **Problem Solving (Intermediate)** : Finished problem solving in Intermediate in the platform, HackerRank.
